

Limited Availability - 20 Member Companies
UPM / JACTIM “Meet & Greet Japanese Companies”
And
Special Invitation to viva session of undergraduates
“Final Year Project Exhibition”

June 13, / 17 2023

JACTIM has been building a relationship with UPM since last year and has been working on creating a system to secure outstanding talents, primarily in STEM fields, through career fairs and internship programs for member companies.

This time, JACTIM and UPM are organizing an exchange and job fair called **"Meet & Greet Japanese Companies" on July 13th (Thursday)** exclusively for JACTIM member companies, where UPM students from all faculties and key professors will be in attendance. Additionally, on July 17th (Monday), there will be a session for participating in the **UPM Faculty of Engineering's final year project presentations (Viva) and student interviews, "Final Year Project Exhibition"**. This arrangement was made based on JACTIM's request to accommodate the rescheduling of the annual official university-wide career fair, which was originally planned for mid-June but has been postponed to October.

On July 13th (Day 1) of the "Meet & Greet Japanese Companies," an opening ceremony and welcome speech will be delivered by Vice Chancellor Dr. Hang from UPM and JACTIM President Mr. Sawamura. There will also be keynote speeches on industry-academia collaboration and the required skills for the future industry, followed by networking opportunities and company presentations between participating companies, students, and professors. Student interviews and recruitment activities will also be conducted simultaneously. We expect approximately 200 participants from all faculties UPM.

On July 17th (Day 2) of the "Final Year Project Exhibition" JACTIM, along with the Ministry of Higher Education, the Ministry of Agriculture, and other government agencies, as well as GLCs such as PETRONAS, will participate in the final year project presentations (Viva) by **500 students from UPM's eight engineering divisions** (*Mechanical, Electrical & Electronics, Chemical & Environmental, Aerospace, Bio-Agri, Civil, Computer, Food & Process*). On the same day, interviews and job sessions specifically for engineering students presenting their viva will be conducted exclusively for JACTIM member companies. Separate information regarding the detailed implementation will be provided to the registered companies for the "Meet & Greet Japanese Companies" session.

We hope that many of member companies will participate in the **"Meet & Greet Japanese Companies" and "Final Year Project Exhibition" sessions to secure outstanding talents from UPM** (*founded in 1931, 15 faculties, 30,000 students, ranked 2nd in Malaysia and 123rd globally in the 2022 QS World University Rankings*) and to further strengthen the relationship with UPM. Please note that this time, participation will be limited to the first 20 JACTIM member companies on a first-come, first-served basis. Please apply and make the payment for participation fees by June 29th through the

link provided in Section 4. Implementation Guidelines and Application.
*Please be aware that in the event that the number of participants does not meet UPM's capacity, the event may be postponed or canceled.

1. Event Details

(Day 1 - July 13th) "Meet & Greet Japanese Companies"

Event Name: "Meet & Greet Japanese Companies"
